

AMDB[®] Security PRO

SIMPLE. ROBUST. DETERRENT.

DEDICATED ANTI-THEFT SOLUTION FOR MINI EXCAVATORS AND EXCAVATORS EQUIPPED WITH TRAVEL CONTROL LEVERS.

ABOUT US

DEDICATED EXPERTISE IN PROTECTING CONSTRUCTION MACHINERY.

AMDB Security Pro specializes in protecting construction machinery against theft. We develop anti-theft solutions specifically designed for mini excavators and excavators equipped with travel control levers, helping construction professionals secure their assets, protect their investments, and maintain the continuity of their job sites.

Our approach is based on a commitment to robustness, precision, and reliability, with special attention given to real field conditions. Through a specialized solution, an industrial vision, and recognized innovation, AMDB Security Pro supports companies seeking to sustainably strengthen the security of their equipment fleet.

CONSTRUCTION THEFT BAROMETER

An alarming statistical reality in USA

68 %

of construction
professionals affected by
theft

75 %

of companies have
experienced at least
2 thefts

× 5

Higher Risk

\$31K

average estimated
loss per incident

A GROWING MARKET, AN INCREASING RISK.

THE RAPID GROWTH OF THE MINI EXCAVATOR FLEET MECHANICALLY INCREASES THEFT OPPORTUNITIES.
DON'T BECOME THE NEXT STATISTIC.

2023 MARKET SIZE

\$15.31B

2032 PROJECTION
(5.65% CAGR)

WHY ACT NOW?

- AVOID RISING INSURANCE PREMIUMS
- SECURE YOUR ONGOING JOB SITES
- ENHANCE YOUR PROFESSIONAL IMAGE

“THE RIGHT QUESTION IS NO LONGER ‘SHOULD YOU SECURE YOUR EQUIPMENT?’ BUT ‘HOW MUCH DOES THE LACK OF PROTECTION COST?’”

A DEDICATED SOLUTION FOR DEMANDING PROFESSIONALS

CONSTRUCTION COMPANIES

SECURING URBAN AND
RURAL JOB SITES TO
PREVENT PRODUCTION
DOWNTIME.

EQUIPMENT RENTAL COMPANIES

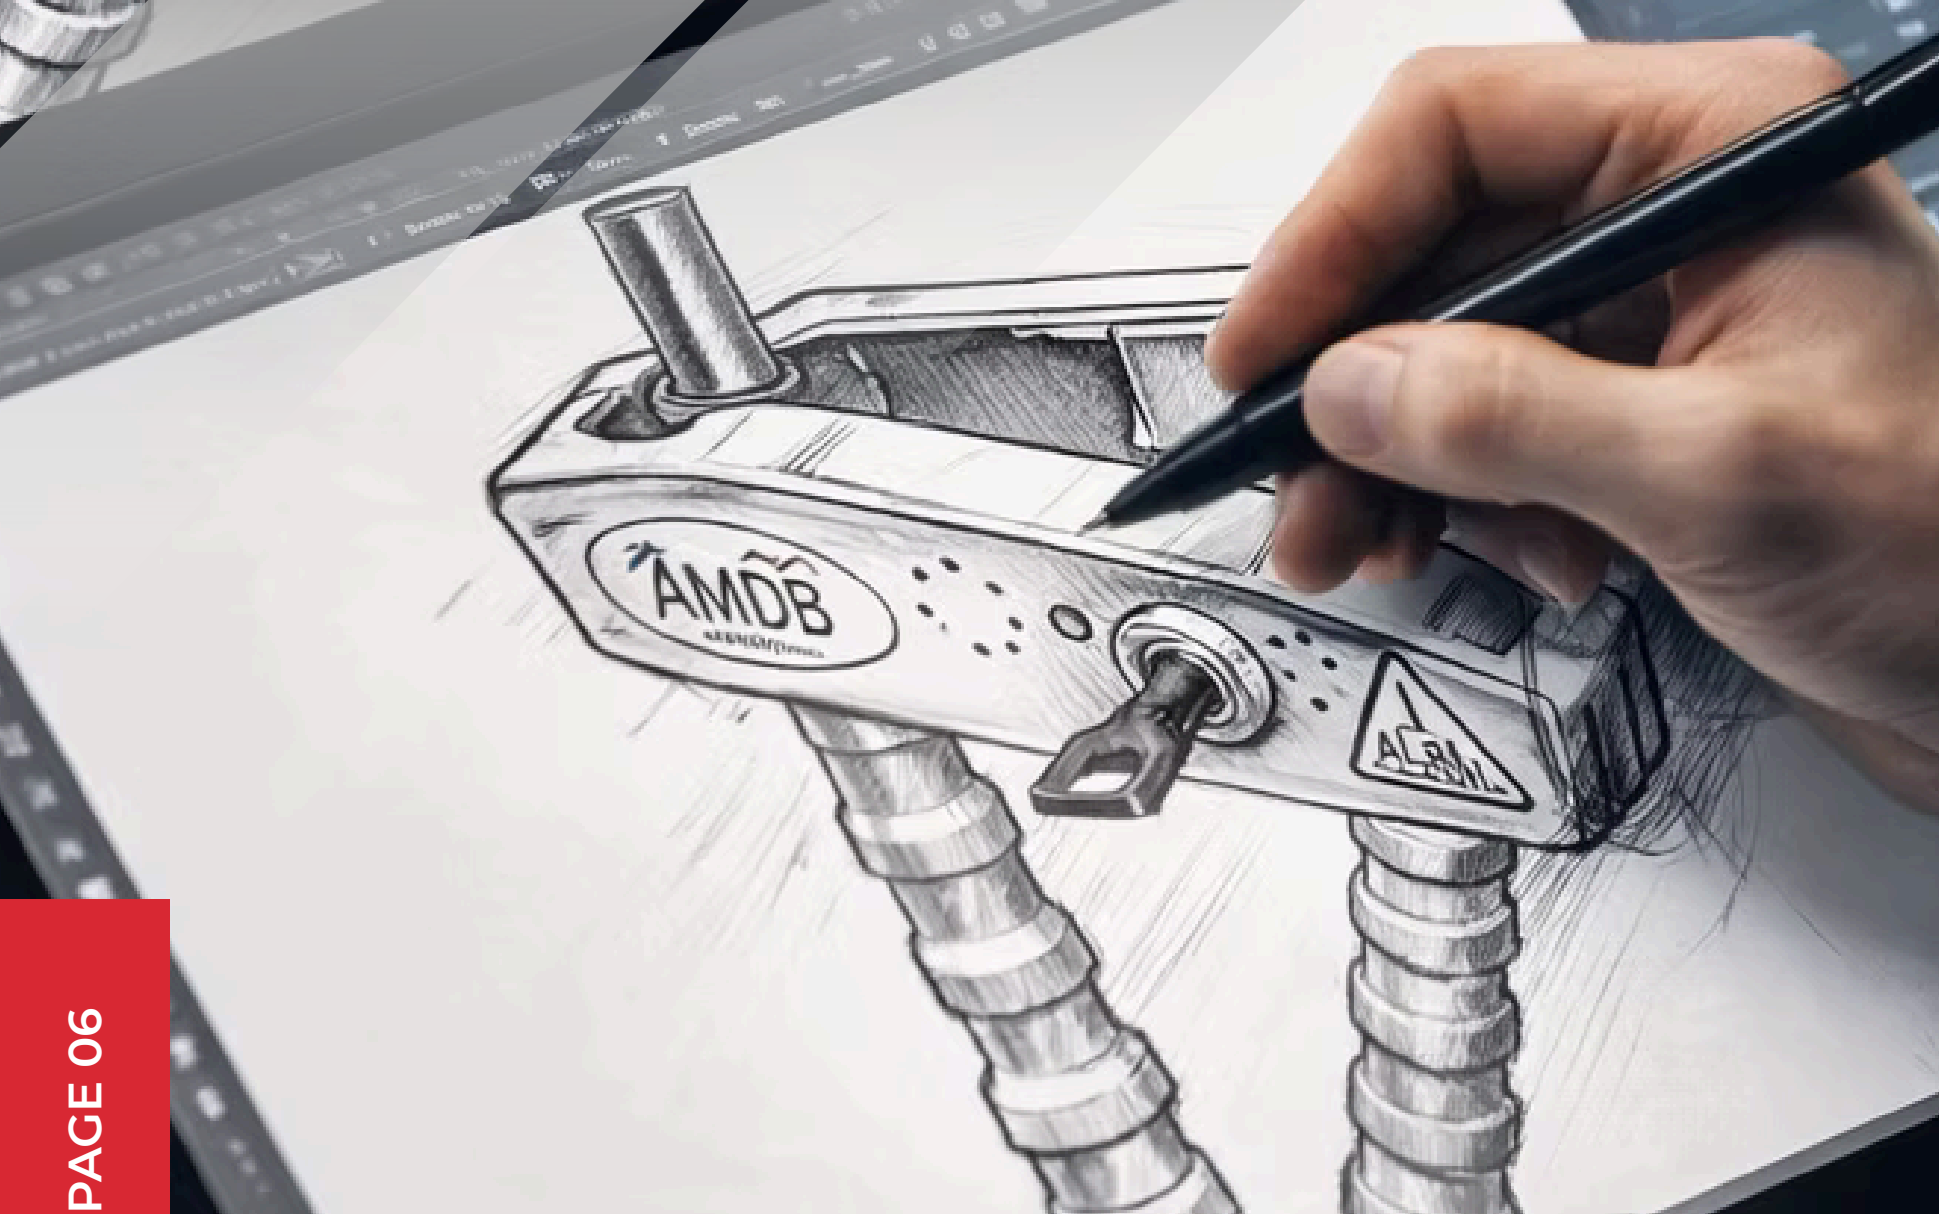

PROTECTION OF RENTAL
ASSETS AND REDUCTION OF
FLEET INSURANCE
PREMIUMS.

CONTRACTORS & EARTHMOVING PROFESSIONALS

PROTECTION OF THE MAIN
WORKING TOOL, OFTEN
PARKED IN ISOLATED AREAS.

FLEET MANAGERS

STANDARDIZATION OF
SECURITY ACROSS THE
ENTIRE EQUIPMENT
FLEET.

PRECISION ENGINEERING

AMDB Security Pro develops anti-theft solutions specifically designed for mini excavators and excavators equipped with travel control levers. Our approach is based on rigorous technical expertise, designed to meet real field constraints and the demands of construction professionals. Each project is developed with a focus on long-term protection, mechanical reliability, and ease of use. Our goal is to provide a credible solution tailored to the machines most exposed to theft risk, while taking into account operational realities, equipment value, and the importance of maintaining job site continuity in an environment where every interruption can have a direct impact on business activity.

Through an industrial vision and a constant commitment to robustness, AMDB Security Pro designs devices intended to strengthen the security of construction machinery with seriousness and precision. Every detail is carefully studied to provide a consistent response to the concrete needs of companies, rental businesses, and equipment fleet operators. Our ambition is not only to offer an anti-theft device, but to contribute to a broader approach to securing investments and protecting operations. By combining innovation, field understanding, and a pursuit of reliability, AMDB Security Pro supports professionals who want to reduce their exposure to risk and sustainably strengthen the protection of their strategic equipment.

SECURED INTEGRATED KEY BOX

ALLOWS KEYS TO BE SECURELY STORED DIRECTLY INSIDE THE ANTI-THEFT DEVICE AFTER USE.

3-STEP OPERATION

1. STORE

AT THE END OF THE RENTAL PERIOD OR JOB SITE OPERATION, THE USER PLACES INSIDE THE DEVICE:
THE MACHINE KEYS AND THE ANTI-THEFT DEVICE KEYS.

2. LOCK

THE SYSTEM LOCKS WITH A PUSH-LOCK MECHANISM.
NO KEY REMAINS ACCESSIBLE FROM THE OUTSIDE.

3. RETRIEVE

THE RENTAL PROVIDER, USING THEIR DUPLICATE KEY, CAN RETRIEVE THE KEYS DIRECTLY FROM THE ANTI-THEFT DEVICE,
EVEN IN THE CLIENT'S ABSENCE.

CONSTRUCTION MACHINERY THEFT IS NO LONGER AN ISOLATED INCIDENT.

IT IS NOW A MAJOR OPERATIONAL BUSINESS RISK.

“

“WHEN A MACHINE DISAPPEARS, IT’S NOT JUST MONEY THAT IS LOST. YOUR DEADLINES, YOUR TEAMS, AND YOUR CLIENT COMMITMENTS ARE ALL IMPACTED.”

JOB SITE DOWNTIME

COSTLY DELAYS

INDIRECT COSTS

PROTECT THE MACHINES. PRESERVE THE BUSINESS.

In a context where equipment theft directly threatens job site profitability, AMDB Security Pro provides an industrial, mechanical, and deterrent solution. Our mission is to ensure the continuity of your operations.

➔ **SECURE OPERATIONS**

Prevent critical job site downtime

➔ **REDUCE EXPOSURE**

Deter Opportunistic Theft Attempts

➔ **PROTECT THE INVESTMENT**

Preserve the Value of Your Equipment Fleet

DESIGNED FOR REAL JOB SITE CONDITIONS

1.

QUICK INSTALLATION

Less than 2 minutes to secure a machine at the end of the day.

2.

NO MACHINE MODIFICATION REQUIRED

Less than 2 minutes to secure a machine. No drilling or welding required.

3.

RESISTANT TO THE ELEMENTS

Anti-corrosion treatment designed to withstand mud, rain, and dust.

4.

UNIVERSAL

Compatible with most major brands (CAT, Kubota, Yanmar, Volvo...).

“PROTECTING A MACHINE MEANS PROTECTING YOUR ABILITY TO DELIVER.”

SPECIALIZED EXPERTISE

AMDB Security Pro develops anti-theft solutions dedicated to mini excavators and excavators equipped with travel control levers. Our approach is based on a concrete understanding of field constraints, operational continuity challenges, and the need to effectively protect the machines most exposed to theft risk. In the construction sector, equipment security is not simply an additional feature: it directly contributes to preserving investments, organizing teams, and ensuring the smooth progress of job sites. That is why we have chosen to provide a specialized solution, designed to address a real problem with seriousness, clarity, and high standards.

HARDENED BORON STEEL

ULTRA-RESISTANT SPECIALIZED ALLOY DESIGNED TO WITHSTAND SAWING, BOLT CUTTER ATTACKS, AND TWISTING ATTEMPTS.

360° ROTATING SLEEVES

INNOVATIVE ANTI-GRIP SYSTEM: THE SLEEVES ROTATE FREELY ON THEMSELVES DURING GRINDER CUTTING ATTEMPTS, PREVENTING ANY TOOL GRIP.

BEYOND MECHANICS

A MULTI-LAYERED APPROACH FOR MAXIMUM SECURITY.

120 DB ALARM

INTEGRATED SELF-POWERED SIREN THAT ACTIVATES AT THE SLIGHTEST IMPACT OR MOVEMENT ATTEMPT.

GPS TRACKER

DEDICATED SECURE COMPARTMENT FOR INTEGRATING AN AUTONOMOUS TRACKER (OPTIONAL).

UNIQUE KEY SYSTEM

HIGH-SECURITY PICK-RESISTANT LOCK WITH UNIQUE CODING FOR EACH CLIENT OR FLEET.

A PRECISION ENGINEERING APPROACH.

DESIGNED, DEVELOPED, AND MANUFACTURED IN FRANCE. AMDB SECURITY PRO RELIES ON LOCAL INDUSTRIAL EXPERTISE TO GUARANTEE UNCOMPROMISING QUALITY.

✓ Simple and Fast Installation

✓ High-Resistance Materials (Boron Steel)

✓ Mechanical Locking

✓ Visible and Highly Deterrent

IN TECHNICAL PARTNERSHIP WITH

TOP BLOCK

FRENCH LEADER IN MOTORCYCLE MECHANICAL ANTI-THEFT SYSTEMS & SECURITY

SECURE YOUR MACHINES BEFORE THE NEXT INCIDENT

AMDB SECURITY PRO SUPPORTS YOU THROUGHOUT FRANCE.
